Electric Low Voltage Training Series – Control System

This course is mainly to introduce the control system for the electrical installations in buildings included those modules of building management system (BMS), interoperability and application with the other electrical and mechanical system, the current design and updated technology. Besides, it will also describe the motoring and measurement of power quality issues and energy management system.

Date : 14 Jan. 2017 and 15 Jan. 2017 (Saturday & Sunday)

Time : 10:00 ~ 13:00 , 14:00 ~ 18:00 (14 Hours)

Course Contents (Language in English)

- Introduction
- Basic components of BMS
- Inter-operability
- Concept of i BMS
- Present design concept and technology
- Utilization of BMS
- Future trend
- Energy Efficiency Fundamentals
- ISO 50001 Energy Management
- Energy Audit / CAP 610
- HVAC System
- VSD/Active Front End / Power Quality,
- Measurement & Benchmarking Energy Performance
- Energy Management Case study on hotel segment
- Energy University Introduction

***Tuition Fee* : MOP 1,680**

Address:

1505, First International Commercial Center Building, Avenida do Dr. Rodrigo Rodrigues, No. 600E, Macao
